#### OPPOSITION TO MARCONI. Anglo-Am. Tel. Co. Cannot Stop His

Experiments. New York, Dec. 18.-That William Marconi's wireless experiments in New foundland cannot be stopped by the Anglo-American Telegraph company, even by resort to the courts, is the assertion of Mr. Marconi's representatices here. They further state that he cannot be stopped even from transmit-ting commercial messages. They say the charter of the Anglo-American com-pany, by which it claims monopoly of telegraphic communication between Newfoundland and other places, was examined by counsel for the Marconi company before an attempt was made to experiment in Newfoundland. They decided that the charter would not in-terfere with the sending of wireless messages to and from Newfoundland even for the two years the charter has yet to be run. They declare in the first place that a charter monopoly would noth operate to estop scientific experiments, and second, that accordling to English decisions such a grant would not operate to bar an invention

# MASO'S REQUEST

ROOT DENIES

Will Not Postpone the Cuban Elections.

WHAT EFFECT WOULD BE.

It Would Prolong American Occupation of the Island and Defer Cuban Independence.

Washington, Dec. 17 .- Secy. Root has addressed a letter to Slidele A. Pierra, the representative of the Maso party in Cuba, who is at present in this city, denying his request for a postponement of the Cuban elctions. 'The secretary's letter, which is dated December 16, is as follows:

"Sir: -- The application for postponement of the Cuban eletion presented by you on Saturday. December 14, in behalf of the supporters of Gen. Maso, as candidate for president of Cuba, has been carefully considered.

"The effect of granting the application would be to prolong American occupation and postpone the independence of Cuba and the control of the island by the government of her own This ought not to be done in the interest of any candidate or without the most weighty and substantial reasons. The substance of reasons which you present is that the central board of scrutiny as now constituted, is composed of gentlemen, none of whom is in favor of Gen. Maso and all of whom are in favor of Gen. Palma, and you declare that that board is un-fair and will be unfair in the performance of its duties.

"The board to which you refer was constituted without reference to any candidate and before any candidate had been named. It consisted of the president and four of the distinguished members of the corrections are the constitutional control of the constitution of the members of the constituional conven tion elected by the people of Cuba to provide for the establishment of the new government. It has the approval convention and of the people whom the convention represented. "Since the board was thus consti-

If catarrh is in the head, Peruna cures , candidates for the presidency been nominated and it happens it; if in the stomach, Perunacures it, that you and your friends have nomi-nated a candidate who has no adherent on the board. That furnishes no ground for turning the board out of office or for postponing the election and overturning the election machinery carefully provided for the representatives of the Cuban people in convention assembled and establishing new ma-chinery for the purpose of putting adherents of your candidate into office.
"If such a course were adopted, new nominations would be effectually required, new propositions and new ar-rangemnts, and aen election might be indefinitely postponed. It is a false theory of official responsibility which assumes that gentlemen placed in conspicuous positions of public trust would be guilty of official malfeasance because they may personally proone candidate rather than another. 'As to the assertion that the central

board of scrutiny has in fact proved to be unfair, something beside mere assertion is necessary. No facts are stated by you to sustain this assertion. except that you allege that an illegal selction of delegates to provincial but you state that there was a failure to post a list of taxpayers, which the city council of Havana ought to have posted on the 29th of October. This was not the business of the central

board of scrutiny.
"I am informed, moreover, by cable from Havana, that the list in question was posted on the 30th of October. The single day's delay could not have occasioned you or your associates the slightest injury or inconvenience, and an objection based upon it is in the highest degree technical.

"While I do not for a moment sup-pose that you intend any such result, I cannot avoid the conviction that your request calls upon the United States for that very interference with the Cuban election which your associates have deprecated and which it is our duty and purpose to avoid. Your application must accordingly be denied."

So Says Captain Diaz Moren Who Commanded The Colon at Santiago.

"I Think Admiral Dewey's Praise of Schley is Just," Says Spanish Captain.

New York, Dec. 18.-Capt. Diaz Moren, who commanded the Colon at the battle of Santiago, says that Admiral Sampson could take no active part in the fight because his ship was twelve miles to the west of Santiago harbor when the Spanish squadron appeared, while Admiral Schley with the Brooklyn, flying his pennant, and the Iowa were close to the mouth of the harbor, cables the Madrid correspondent of the Journal and Advertiser.

"Both warships," said Capt. Moren, fought the Marie Teresa, which, seven minutes afterwards, was aftre. My ship, the Colon, appeared then, firing her larboard artillery against the lowa. which not moving quickly enough, would have been sunk by the Colon's pushing had not the Brooklyn fought then an bour and a half with the Colon. Evidently the credit of the first part of the battle, during which the Maria Teyesa and the Viscova were placed. of the battle, during which the Maria Teresa and the Viscaya were placed hors de combat, belongs to Schley, as well as the second part, during which the Colon fought alone against the Brooklyn and Iowa and the Oregon. She was finaly vanquished by the superior artillery of the Iowa and the faster speed of the Oregon.

"I think Admiral Dewey's praise to Schley is just. It does not diminish Admiral Sampson's glory, to whom, as superior comander was due the positions of the ships, held in the line of blockade and without whose instructions the result might be seen in another light."
